Hydraulic Power Pack

XB 2

Plarad Quality

Hydraulic Power Pack XB 2 in proven Plarad quality

- Use of hydraulic torque wrenches with single- or dual hose technology.
- Other hydraulic tools like flange spreader and nut splitter can be operated, too.
- The Power Pack is protected by a solid steel frame.
- Due to the service friendly and compact construction maintenance can be easily fulfilled.

The new Hydraulic Power Pack XB 2 is another Plarad high-quality product. Its excellent manufacturing ensures reliability and durability. Due to the submersible oil technology with integrated High Speed Cooling system, this Power Pack offers an optimal weight-performance ratio and is designed for continuous operation in all scopes of applications. The low noise level and the handling underline the ease of operation.

Technical Data

XB 2

Drive: electrical
Flow rate: 1,25 l/min constant
Working pressure: up to 800 bar
Operation mode: manual
Weight: 29 kg

XB 3,5

projected !

electrical, 400 V~
3,5 l/min constant
up to 800 bar
manual
33 kg
